"SPWLA 2008 Joint SE Asia/Japan/Australia Petrophysical Conference"
An event held in collaboration with FESI, FESM, JFES & FESAus Chapters

SPWLA 2008 Joint SE Asia / Japan / Australia Petrophysical Conference

Reservoir Characterization – Challenges from the Asia-Pacific Region-cases from SE Asia / Japan / Australia

24 Aug – 27 Aug 2008, Bangkok, Thailand
(24 Aug pm – Registration / Ice Breaker)

The SPWLA 2008 Joint SE Asia / Japan / Australia Petrophysical Conference will be for technology presentation and open discussion on the Characterization of Reservoirs encountered in the region, extending from Japan to Australia. We will investigate challenges and local field practices from this region as they relate to petrophysics either at exploration, appraisal and or development stage. The final agenda will vary with submissions from participants but will be bracketed according to the sub-themes received.
